

# EXPLORING LIGHT & SHADOW WITH CHILDREN

Participants will experience many ways to bring light and shadow experiences into their classrooms, there will be ideas for all age groups, including infants and toddlers. Come learn how to mix colour with light and find out about the many creative possibilities... In addition participants will learn how to create an inexpensive light box using simple, easily sourced materials.

## ANNETTE COMEAU

*Hi, I'm Annette Comeau. I am an artist and a graduate of NSCAD University. I have earned degrees in Fine Art, Art Education and Graphic Design. I am also an experienced early childhood educator with over 20 years of experience working at times as a teacher, assistant director, director or presenter. I am passionate about incorporating "real" art experiences into early childhood programs and I am a strong advocate for interest and project-based approaches that engage children in meaningful and exciting learning.*
